## Bad Stomach Makes Bad Blood.

You can not make sweet butter in a foul, unclean churn. The stomach serves as a churn in which to agitate, work up and disintegrate our food as it is being digested. If it be weak, sluggish and foul the result will be toxic, sluggish liver and bad, impure blood.

The ingredients of Dr. Pierce's Golden Medical Discovery are just such as best serve to correct and cure all such derangements. It is made up without a drop of alcohol in its composition; chemically pure, triple-refined glycerine being used instead of the commonly employed alcohol. Now this glycerine is of itself a valuable medicine, instead of a deleterious agent like alcohol, especially in the cure of weak stomach, dyspepsia and the various forms of indigestion. Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says of it:

"In dyspepsia it serves an excellent purpose. It is one of the best manufactured products of the present time in its action upon feeble, disordered stomachs; especially if there is ulceration or catarrh of the stomach (inflammation of stomach). It is a most efficient preparation. Glycerine will relieve many cases of dyspepsia and excessive gastric acidity. It is useful in chronic intestinal dyspepsia, especially the flatulent variety, and in certain forms of chronic constipation, stimulating the secretory and excretory functions of the intestinal glands."

When combined, in just the right proportions, with Golden Seal root, Stone root, Black Cherry bark, Queen's root, Blood-root and Mandarin root, or the extracts of these, as in Dr. Pierce's Golden Medical Discovery, there can be no doubt of its great efficacy in the cure of all stomach, liver and intestinal disorders and derangements. These several ingredients have the strongest endorsement in all such cases of such eminent medical leaders as Prof. R. Bartholow, M. D., of Jefferson Medical College, Chicago; Prof. Robert A. Hare, M. D., of Medical Department, University of Pennsylvania; Prof. J. M. Johnston, M. D., of Medical Department, University of New York; Prof. Edwin M. Hale, M. D., of Rush Medical College, Chicago; Prof. J. M. Johnston, M. D., of Medical Department, University of New York; and Prof. John King, M. D., of the American Dispensary, and scores of others among the leading medical men of our land.

Who can doubt the curative virtues of a medicine the ingredients of which have such a professional endorsement?

Constipation cured by Doctor Pierce's Pleasant Pellets. One or two a dose.

## THE PEOPLE ALL

### En Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows, sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

## Accident to Electric Car.

Eleven persons are dead, a score seriously and many others slightly injured as the result of the overturning of a crowded electric car at Moore's Corner, in East Providence, R. I., early yesterday morning. More than 100 young men and women, who had spent the evening at Crescent Park, a pleasure resort on the Providence river, six miles below Providence, were on the chartered car returning to their homes. It is believed that two of the injured will die.

The wreck occurred on the subdivision line of the Rhode Island Company. The motorman in charge of the car, W. J. Laucher, of Olneyville, although experienced in his calling, was unfamiliar with the road, over which he was traveling for the first time. Laucher was put in charge of the car at the solicitation of the passengers, members of a Catholic society, which had been to Crescent Park for an outing. The car, an open one of heavy build, was crowded with young men and women.

Fog prevented a clear view of the road ahead and the motorman, unable to see far ahead of the car, and unaware of the sharp curve below, allowed the car to coast rapidly down the hill. Suddenly he felt the car swing into the curve, and, realizing the peril, applied the brakes and reversed the power. The weight of a number of men on the running board and the momentum sufficed to derail the car and throw it into the road 20 feet from the track.

Seven of the passengers were pinned beneath the car and instantly killed. Those who were able began the work of rescue.

A large joint was utilized as a lever, a pile of stones forming the fulcrum, and the car was raised from the ground just enough to permit the escape of its imprisoned passengers. Two persons had succeeded in escaping when the joint broke under the weight of the car, and the heavy vehicle fell back, killing two of the injured.

The rescuers again raised the car from the ground, and, by building a pile of heavy stones, kept it in position while the dead and injured were removed.

Two of those taken out had sustained fractured skulls and died within an hour.

## Killed in Runaway Accident.

Miss Millie Wheeler, 35 years of age, of Fifty-fourth street and Broadway, New York, was instantly killed in Morristown, N. J., yesterday in a runaway accident. Mr. and Mrs. H. L. Aldrich, living in apartments at the San Remo Hotel, New York, and Miss Maude Munroe, of New York who were with Miss Wheeler in the carriage, were seriously injured. The horse was driven by Miss Munroe. When in front of the residence of John O. H. Pitney, on South street, it became frightened at an empty automobile that was standing in the gutter awaiting repairs. On the front seat with Miss Munroe was Miss Wheeler, and in the rear seat were Mr. and Mrs. Aldrich. The horse took fright at the automobile, in the gutter, and made a plunge forward, and then shifted to the left of the road. Realizing the danger, Miss Munroe made an effort to get a better grip on the reins, but failed; lost her balance and fell out of the carriage to the ground. More frightened at this, the animal lunged ahead, swinging the carriage from one side of the road to the other. Miss Wheeler attempted to jump from the buggy. She stood up in the wagon for a second, and then leaped out backwards. Her head struck the hard macadam road, fracturing the base of her skull. She died within a few minutes after striking the ground. Mrs. Aldrich was next to jump, and fell on her side, sustaining several ugly gashes in the forehead. Aldrich was more fortunate in his leap from the carriage, and apart from being badly shaken up was uninjured.

Miss Wheeler had gone to Morristown on Saturday to visit Miss Munroe. Miss Wheeler was a daughter of the late A. C. Wheeler ("Nyma Crinkle"), the noted dramatic critic.

## Arraigned His Enemies.

At the close of the communion services in the Lutheran Church at Middletown, Md., yesterday morning, the pastor, Rev. M. L. Beard, who recently received a unanimous call to become pastor of the congregation at Thurmont, Frederick county, which filled every pew in the church, that that would possibly be the last time he would administer the holy communion to those present as pastor of the congregation. He then proceeded to denounce in a most severe manner those who, he declared, were responsible for his leaving. He said that Satan had put in into the heart of Judas Iscariot to betray the Saviour and so had put it into the heart of several members of this congregation to concoct a diabolical plot for his betrayal. He declared that he had been ordered from the organ

## Long Tennessee Fight.

Forty-two years W. L. Rawls, of Belle, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Backen's Anicura Salve to the nose surface; this caused the swelling and soreness to disappear, never to return." Best salve in existence. 25c at E. S. Leadbeater & Sons, Druggists.

platform by a wave of the hand, had been branded as a liar in the presence of his council; that he and his family had been traduced and slandered by a few and that because he was a minister of the gospel he was compelled to desist from resenting it. The pastor said that while his ministerial course had been vindicated by the recent large congregational meeting, and that notwithstanding he had been assured that if he remained possibly increased, he thought it best to leave. He would not go, however, until those responsible for the trouble in the congregation would prefer the charges that they declared they held against him, so that his congregation, by vote, should either pronounce him guilty or vindicate him. He closed by asking the present council, which was recently elected in his favor, to remain a few moments.

## Narrow Escape of Aeronaut.

While making a trial flight with his airship, at an amusement resort at Cleveland, Ohio, yesterday, Lincoln Beachy, the young San Francisco aeronaut, narrowly escaped death by the collapsing of the frame work of the car. The airship was 500 feet in the air when the accident occurred, and the daring young navigator was saved from being dashed to the ground only by the narrow margin. He managed to guide the airship until it was but fifty feet above the ground, and although it fell that distance he escaped uninjured except for a few bruises. The airship was partly wrecked.

Everything was running smoothly when, without warning, the two bamboo poles at the center of the car near the engine snapped in two. This caused the entire framework to double up like a jack-knife. The rapidly revolving propeller was hurled into the forward end of the balloon, cutting a big opening in it. The escaping gas caused the car to sway to and fro, and it was with difficulty that Beachy remained in the cage. The car started to drop slowly, and the ruder being useless, it was blown over the park in the opposite direction from which it was headed. The hydrogen gas which filled the balloon poured down upon Beachy nearly smothering him. Fortunately, the gas escaped slowly, and there was enough in the balloon to support the car until it was within fifty feet of the ground.

The descent had been gradual, but, owing to the swaying of the car and the fumes of gas, Beachy was in constant danger of death.

## Loving Cup for Judge Nicol.

Judge C. E. Nicol closed his last term of court in Warrenton, Saturday, and hereafter the counties of Fauquier, Loudoun and Rappahannock will be presided over by Judge E. S. Turner. Friday evening J. A. C. Keith gave a handsome dinner to his brother members of the bar in honor of Judge Nicol at which steps were taken looking to the organization of a local bar association. At the close of court Saturday a silver loving cup was presented to Judge Nicol by the members of the Fauquier bar, and resolutions of respect and esteem were adopted by the members of the bar.
